(3) Users shall independently assess AI-generated content in light of their own needs and shall bear all risks arising from the use of such content.

Content concerning professional fields such as medicine, law, finance, investment, taxation, and workplace safety is provided for reference only and shall not serve as the sole basis for decision-making.

Article 2 Third-Party Models

Certain artificial intelligence models made available through the Platform are lawfully provided by third-party service providers.

Different models may vary in functionality, performance, response speed, context length, stability, and pricing standards.

By independently selecting and using a particular model, a User acknowledges and accepts the technical limitations and service rules that may apply to that model.

Cancellation itself does not automatically give rise to a right to withdraw the Balance, nor does it constitute a basis for the Platform to confiscate any unused Paid Balance.

Cancellation of an Account shall not affect any legal relationships that arose prior to cancellation or any liabilities that either Party is required by law to bear.

Chapter VI Intellectual Property Rights

Article 1 Intellectual Property Rights of the Platform

The intellectual property rights in the Platform and its related products, software, web pages, interface designs, program code, databases, trademarks, logos, text, images, audio, video, documents, and other content are owned by CloudBridge AI Technology Limited or the relevant rights holders in accordance with law.

(4) the Platform does not warrant that third-party models will continuously maintain the same functions or performance;

(5) the Platform does not warrant that all Services will satisfy all of the User's business needs.

Except as otherwise provided by laws or regulations, the User shall bear responsibility for any decisions made on the basis of AI-Generated Content and any consequences arising therefrom.

Article 2 Force Majeure

Where the Services are interrupted, delayed, or rendered unavailable due to earthquakes, typhoons, floods, fires, wars, government actions, public health events, communications failures, power outages, cyberattacks, disruptions to third-party services, or other force majeure events or factors beyond the Platform's control, the Platform shall bear the corresponding liability in accordance with law; where exemption from liability is permitted by law, the applicable legal provisions shall govern.

Chapter VIII Liability for Breach

Article 1 Breach by the User

If the User breaches this Agreement, the Platform Rules, or applicable laws or regulations, the Platform shall have the right to take one or more measures according to the circumstances of the breach, including but not limited to:

(1) issuing a warning;

Article 2 Breach by the Platform

If the Platform breaches this Agreement, it shall bear the corresponding legal liability in accordance with law.

Nothing in this Agreement shall exclude or limit any rights that the User lawfully enjoys under applicable law, nor shall it exempt the Platform from any statutory obligations it is required by law to bear.

Chapter IX Governing Law, Dispute Resolution, and Supplementary Provisions

Article 1 Governing Law and Dispute Resolution

The formation, effectiveness, performance, interpretation, and dispute resolution of this Agreement shall be governed by the laws of the Hong Kong Special Administrative Region.

Any dispute arising out of or in connection with this Agreement shall first be resolved by the Parties through amicable consultation.

If such consultation fails, either Party may bring proceedings before a court of competent jurisdiction in the Hong Kong Special Administrative Region.

Article 2 Amendments to the Agreement

The Platform shall have the right to amend this Agreement in response to laws and regulations, regulatory requirements, business development, or adjustments to the Services.

If an amendment may have a material impact on the User's rights and interests, the Platform will notify the User by means of a website announcement, an in-platform notice, email, or other reasonable means.

The updated provisions shall take effect on the date specified in the relevant announcement or notice. Where laws or regulations require the User's separate consent, the Platform will obtain such consent in accordance with law. If the User does not accept the updated provisions, the User may cease using the relevant Services.

Article 3 Miscellaneous

Any matters not addressed in this Agreement shall be governed by applicable laws and regulations and the relevant rules published by the Platform.

This Agreement, together with the Privacy Policy, Recharge Service Agreement, Rules for the Use of AI Services, Third-Party Model Service Description, and Data Security Commitment, constitutes the complete agreement framework governing the User's use of the Platform Services. In the event of any inconsistency among these documents, the specific document governing the particular matter shall prevail.

If any provision of this Agreement is partially invalid, rescinded, or unenforceable, the validity of the remaining provisions shall not be affected.
